

Thank you for viewing my banner portfolio

This is only a small portion of work I have created over the last 33 + years. I like to be creative and challenge myself.

Thanks, Pete

**signage** [sahy-nij] *noun*

graphic designs, as symbols, emblems, or words, used especially for identification or as a means of giving directions or warning.

**Miraculous Shifts**

*As a healer, it has always been essential for me to be the change I want to see in others. The practice of SE has allowed me to heal emotional and physical traumas that I'd thought were untouchable. It allows me to be available for the same kinds of miraculous shifts within myself as those I witness in my clients.*

**Potent and Effective**

*I have patients who are off all of their medication. I have patients who no longer suffer from panic attacks. I have a patient who is no longer haunted by traumatic visions. I am trained in other techniques. However, SE is the only method I have found that consistently helps people reorganize their nervous systems and greatly reduce, if not completely erase, trauma symptoms.*

**Shirley Impellizzeri, PhD, SEP, Author**

**Our Mission**

**Trauma is a fact of life. It does not, however, have to be a life sentence.**

The SE™ Trauma Institute is dedicated to resolving trauma worldwide by providing state-of-the-art professional training and public education in Somatic Experiencing® (SE). SE is a powerful psycho-biological method for addressing physical and emotional trauma, PTSD, overwhelm, and stress-related conditions. Through our professional association we support the self-organization of a broad international network of passionate, skillful SE practitioners who serve individuals in need and communities in crisis around the globe.

**The Institute is a 501(c)(3) nonprofit educational organization.**
